SOLUTION CHALLENGE

(GOOGLE DEVELOPERS GROUPS ON CAMPUS)

What is Solution Challenge?

- Organized by **GDG On Campus** for student developers from various colleges/universities across India who are a part of GDG on Campus program.

- The Solution Challenge is an opportunity for student developers to tackle pressing social issues—such as education, healthcare, sustainability, and more—using **Google Developer technologies**.

- Student developers not only gain invaluable skills but also contribute to making a positive impact on society.

Theme for the Challenge:

- Aligned on themes for social good, the Solutions Challenge revolves around solving **real-world problems using Google Developer technologies**.

- We have various themes that focus on leveraging AI and other technologies to address real-world challenges.
