Welcome to SET Series of Work Shops:

SDC Education Transformation is an ecosystem dedicated to conducting industry-relevant workshops. Our hands-on approach supplements academic learning, empowering students with practical skills beyond the curriculum and supporting Curricular Practical Training (CPT) opportunities.

We encourage student-led workshops, providing full support from topic selection to preparation. Each workshop concludes with a capstone project, allowing participants to apply their knowledge.

Upon completion, participants receive recognition through awards and certificates, enhancing their professional credentials. Join us in redefining education and shaping future industry leaders.

ZSCALER ZERO TRUST CERTIFIED ASSOCIATE (ZTCA)

Zscaler, Inc. is an American cloud security company based in San Jose, California. The company offers cloud-based services to protect enterprise networks and data.

Zscaler's Zero Trust Exchange platform features cyberthreat protection, data protection, zero trust connectivity, and business analytics. It was first announced at Zenith Live in June 2023. In January 2024, the company announced Zscaler Zero Trust SASE, enabling it to offer its first single-vendor SASE.

It is built on the company's AI-powered SSE platform to securely connect users, locations, and cloud services through its Zero Trust Exchange. It also offers a cloud-based cybersecurity platform, Zscaler Internet Access.

In collaboration with ZSCALER & EDU Skills.

Speakers : Instructors from ZSCALER.

Program details:

SET Series : 06 (Tech Camp)

Topic : Zero Trust Certified Associate (ZTCA)

Date : 27.11.24 to 29.11.24

Duration : 9.30 am to 3.30 pm

Venue : Hall 1 (Near main gate)

Bonus : Rs.30K worth of Global Exam Voucher free for all the attendees.

Certificates : 3 certificates - From ZSCALER, AICTE#, GRIETSDC.

Fee : Rs.300/- (Account details and Scan code are given in the last page).

(Lunch and the participation certificate provided for all the registered students).

SYLLABUS

Date	Course Name	Topic
Day-1	Zscaler For Users - Essentials	Mod 1.Zero Trust Exchange Overview
		Mod 2.Quick Start Guide LAB Environment
		Lab 0: Connecting to the Virtual Lab & Lab 1: Verify No Protection
		Mod 3.Identity Services
		Mod 4.Basic Connectivity
		Lab 2: ZIA User Authentication - SAML with Microsoft Azure Active Directory
		Lab 3: ZIA SCIM Authorization
		Lab 4: ZPA User Authentication - SAML with Microsoft Azure Active Directory
		Mod 5.Platform Services
		Lab 5: ZPA SCIM Authorization
		Mod 6.Digital Experience
Day-2	Zscaler For Users - Essentials	Lab 6: Traffic Forwarding: Zscaler Client Connector
		Mod 7.Access Control
		Lab 7: Policy: SSL Inspection
		Mod 8.Cyber Security Services
		Lab 8: Policy: Configuring Access Control Policies
		Mod 9.Basic Data Protection Services
		Lab 9: Provision ZPA Infrastructure
		Mod 10.Basic Troubleshooting & Support
Day-3	Zscaler For Users - Essentials	Lab 10: Add an Application
		Lab 12: Configure Corporate Applications
		Lab 13: Configuring Cloud Applications Monitoring
		Doubt clarification
		Lunch Break
		Time to complete labs and closing ceremony

OUTCOME

After completing this path, you will be able to:

- * Recognize the importance of shifting from a legacy network and security architecture to a zero-trust architecture in a new world of digital transformation.
- * Identify the background and importance of the three sections needed to build a successful zero trust architecture
- * Discover how connections are made to and from Zscaler's Zero Trust Exchange
- * Determine the technology and architectural considerations needed when building a true zero trust architecture
- * Explain how Zscaler's Zero Trust Exchange accomplishes each of the seven elements of a true zero trust architecture.
