AWS Certification Program Agreement

Last Updated: December 22, 2020

This AWS Certification Program Agreement (the "CPA") contains terms that govern your participation in the AWS Certification Program (as defined below), entered into between Amazon Web Services, Inc. ("AWS," "we," "us," or "our") and you ("you"), and is made a part of the AWS Customer Agreement (available at <http://www.aws.amazon.com/agreement>) (the "Customer Agreement"), as it may be updated from time to time. By accepting these terms, you represent to us that you are lawfully able to enter into this CPA. If you are between 13 and 17 years of age, your parent or legal guardian must accept the terms of this CPA on your behalf in order for you to participate in the Program. Capitalized terms not defined in this CPA have the meanings set forth in the Customer Agreement.

1. The AWS Certification Program.

1.1. Participation Requirements.

"Testing Materials" means the Certification Exam and any other materials that are provided to you in connection with a Certification Exam (which may include instructions, study materials, exam questions, or other content).

"Unauthorized Content Disclosures" means any Testing Materials that are disclosed by or to anyone without the express permission of AWS, including but not limited to Testing Materials listed on third-party websites without the express permission of AWS.

☒ I am at least 18 years old.

☒ I agree to abide by the terms and conditions outlined in this agreement.

The screenshot displays the AWS Certification website's exam scheduling page. The browser address bar shows the URL: https://www.certmetrics.com/amazon/candidate/exam_scheduling.aspx. The candidate ID is AWS01441783. The page features a navigation menu with links: Home, My Profile, Upcoming Exams, Previous Exams, Achieved Certifications, Benefits, Share My Transcript, and Digital Badges. A sidebar on the left lists various accommodations under the heading "Accommodations". The main content area includes two sections: "Online proctoring for AWS Certification Exams" and "Practice Exam Scheduling". The "Online proctoring" section explains that online proctoring is available for all AWS Certification exams from either of their test delivery providers, Pearson VUE and PSI, and notes that communication with a proctor is required for an online-proctored appointment. The "Practice Exam Scheduling" section states that practice exams can be scheduled by clicking on the "Schedule Practice Exam with PSI" or "Schedule Practice Exam with Pearson VUE" buttons on the right. On the right side, there is a vertical stack of buttons: "Request Exam Accommodations", "Manage PSI Exams", "Manage Pearson VUE Exams", "Schedule Practice Exam with PSI", and "Schedule Practice Exam with Pearson VUE".

Online proctoring for AWS Certification Exams

Online proctoring is available for all AWS Certification exams from either of our test delivery providers, Pearson VUE and PSI. Online proctoring for candidates in mainland China is only available via PSI. Communication with a proctor is required to complete an online-proctored appointment. Both Pearson VUE and PSI support online proctoring in English. Additionally, Pearson VUE supports online proctoring in Japanese.

Practice Exam Scheduling

Practice exams can be scheduled by clicking on the "Schedule Practice Exam with PSI" or "Schedule Practice Exam with Pearson VUE" buttons on the right.

☐ At a local test center

☒ Online from my home or office

☐ I have a Private Access Code

We need to verify that the computer and internet connection you plan to use on exam day meet the [minimum requirements](#) for online testing. It'll just take 5 minutes to run and you can do so after you've completed scheduling.

NOTE: We strongly recommend using a personal computer (not issued from your employer) and a wired, ethernet connection. The two most frequent causes of technical issues with online proctored exams are testing on (1) a work computer and (2) an unreliable internet connection. Firewalls or security settings from work computers may restrict the software from operating properly. Unreliable internet connections (wireless network, VPN, mobile hotspot) may lead to being disconnected.
